

KITTEN AND CAT VARIETIES

Our passion and commitment to develop and produce nutrient-dense and balanced pet food stems from our belief that nutrition is not only a vital part of your pet's physical health but also plays a huge part in their overall wellbeing and enjoyment of life.

This wonderfully balanced holistic food is manufactured to exacting ethical standards of quality, performance, economy and safety using only the finest natural ingredients.

NEW KITTEN VARIETIES

For growing kittens we know that quality meat protein with no added preservatives is essential for a head start in life.

NEW CAT VARIETIES

Premium varieties specifically formulated to achieve complete and balanced nutrition a cat needs to thrive.

Turkey & Chicken are low-GI meats with fewer kilojoules and less fat than dark meat.

Goat meat is a rich source of lean protein that assists growth during early stages of life.

Duck meat contains a sufficient amount of fat and fatty acids which actually stimulates body weight control.

Kangaroo is the most protein packed meat and rich in omega-6 fatty acids and essential amino acids.
